

Re-examination of *Vaccinium dialypetalum* (Ericaceae) – Erratum

S. P. VANDER KLOET

Department of Biology, Acadia University, Wolfville,
Nova Scotia, Canada B4P 2R6

In Vander Kloet (2002), I overlooked the fact that Sleumer had in 1941 already made combinations for the taxa in question under *Vaccinium*. Therefore the names I proposed are later homonyms and are illegitimate. The correct names for the taxa in question should be:

Vaccinium ridleyi Sleumer, Bot. Jahrb. 71 (1941) 424. *Agapetes parviflora* Ridl., J. As. Soc. Str. Br. 61 (1912) 26 *non* Dunn (1903), *nec Vaccinium parviflorum* Andr. (1800); *Agapetes micrantha* Ridl., Fl. Mal. Pen. 2 (1923) 205, *non Vaccinium micranthum* Dunal 1839; *Vaccinium micranthum* Vander Kloet 54 (2002) 181 *non* Dunal (1839). **Type:** *Ridley 15768* (holo SING!).

Synonym: *Vaccinium pseudodialypetalum* Ng, Gard. Bull. Sing. 28 (1976) 231. **Type:** *KEP 56673* (holo KEP).

Vaccinium urophyllum Merr., Pap. Mich. Ac. Sc. 19 (1934) 184. **Type:** *Yates 2427* (holo MICH; iso NY, US).

Synonyms: *Vaccinium longilingua* Sleumer, Bot. Jahrb. 71 (1941) 424; *Agapetes perakensis* Ridl., Fl. Mal. Pen. 2 (1923) 205, *non Vaccinium perakense* Ridl. (1918); *Vaccinium perakensis* Vander Kloet, Gard. Bull. Sing. 54 (2002) 182 *non*. Ridl. (1918). **Type:** *Ridley 5532* (SING!).

Agapetes griffithii auct. *non* C.B. Clarke (1882); King, J. As. Soc. Beng. 74 (1906) II 59.

Acknowledgements

I acknowledge the help and advice of J.F. Veldkamp (L) and I.M. Turner (SING) in the preparation of this erratum.
